Journal Indexing:

✓ **Scientific Indexing Services (SIS) (USA)** is academic database which provides evaluation of prestigiousness of journals. The evaluation is carried out by considering the factors like paper originality, citation, editorial quality, and regularity & international presence.

Academic database SIS provides:

- citation indexing, analysis, and maintains citation databases covering thousands of academic journals, books, proceedings and any approved documents;

- maintains academic database services to researchers, journal editors and publishers;

- provides quantitative and qualitative tool for ranking, evaluating and categorizing the Journals for academic evaluation and excellence.

✓ **Citefactor (USA)** is a service that provides access to quality controlled Open Access Journals. The Directory indexing of journal aims to be comprehensive and cover all open access scientific and scholarly journals that use an appropriate quality control system, and it will not be limited to particular languages or subject areas.

The aim of the Directory is to increase the visibility and ease of use of open access scientific and scholarly journals thereby promoting their increased usage and impact.

CiteFactor cooperates with the leading universities. The base includes nearly 13 thousand scientific journals.

✓ **International Innovative Journal Impact Factor (IIJIF)** – academic database was organized with the aim of creating an open platform for scientific research around the world. IIJIF provides the necessary communication of scholars, editors, publishers and conference organizers, through its exclusive services: provides indexing of scientific journals (calculates the impact factor), forms a list of national/international conferences and journals.

**Certificate of Mass Media Registration:
KB № 21060-10860P from 24.11.2014 p.**
